September 14, 2018

FROM THE ENGINEER

It's rare we receive compliments, but I received two at SCRAP that I would like to share with you. One gentleman from Riley Township said he has traveled in every State, except Hawaii, and Sandusky County has the best roads! Another gentleman was very appreciative of the mowing being done on CR 32. He said they were taking their time and doing a good job. My thanks goes out to the employees (past and present) that prompted these compliments! It's rare people take the time to do this, so I considered it a great accomplishment, and it goes to show the importance of our work is recognized.

It's Issue 2 (Ohio Public Works Commission/OPWC) application season here in the office. It's always interesting to go over applications from other county entities and politely point out errors, or missing information. Tara has caught on very quickly and picks up on details that can be easily overlooked, and passes on the information in a very nice way.

Paving, more accurately milling, has started on Fangboner Road. Supposedly, they (Kokosing) will be doing corrective work on Napoleon Road and CR 30 as part of this project. In the meantime, we are withholding final payment on both jobs.

HAPPY BIRTHDAY!!!

Tim Below September 25th

FROM THE ROAD SUPERINTENDENT

It's been another busy two weeks. Really, no big construction projects to speak of; just a lot of miscellaneous projects. One project that is going on is setting back a section of Nine Mile Creek along CR 65. This will be a good improvement by getting the ditch away from the road and having a good shoulder.

Mowing has been another job we have been trying to keep up with. It seems like it is spring time again, as fast as the grass is growing. I hope to get two more mowers out very soon.

In the next week or two we will be waterproofing five more bridges, so a couple of guys spent some time precutting all the waterproofing material needed for the upcoming bridges.

Miscellaneous Work

- Sandblasting & Painting JA. 72-1.50
- Sealing & Painting Pre-Stress Beams
- CR 32 Ditch Cleaning
- CR 268 Ditch Bank Repair
- CR 232 Tile Repair
- Waterproofing a Bridge on TR 254
- CR 147 Asphalt Spot Repair
- Assisted Ditch Maintenance with hauling, and also asphalt repairs along Little Bark Creek

FROM THE OFFICE MANAGER

Budget

If you know of something that needs replaced, or repaired...let Chad know. If you are considering Retirement or Health Insurance Policy changes in 2019, please let me know soon.
