XV EXTRA WORK

The Contractor shall do any work and/or furnish any materials not herein provided for, which in the opinion of the Engineer, may be found necessary or desirable for the completion of the work. No extra work will be paid for or allowed unless the same was done upon written contract with the Owner, and after all legal requirements have been complied with. The Contractor agrees that he will accept as full compensation for extra work, so ordered an amount determined by one of the following methods:

The time of completion of the parts of the work is of the essence of the contract, and should the Contractor neglect, refuse, or fail to complete the work to be done under the contract within the time herein agreed upon, after adding all extensions of time granted by the Owner, then in that event the Owner shall have and is hereby given the right to deduct and retain out of such money, which be then due, or which may become due and payable to the Contractor for the work to be done under this contract, the sum of Two Hundred Dollar ($200.00) per day for each and every calendar day that the work is delayed in its completion beyond the agreed time. Said sum per-day for such delay, failure or non-completion shall be deemed, taken and treated as liquidated damages which the Owner will suffer by reason of such default, including but not limited to extra cost of engineering and inspection, and not by way of penalty.

XVII NO WAIVER OR RIGHTS

Neither the inspection of the Engineer or Owner or any of their employees, nor any order, measurement or certificate by the Engineer or Owner, nor any order by the Owner for the payment of money, nor any payment for, or acceptance of the whole or any part of the work by the Engineer or Owner, nor any extension of time, nor any possession taken by the Owner or its employees, shall operate as a waiver of any provision of the Contract, or of any power herein reserved to the Owner, or any right to damages herein provided, nor shall any waiver of any breach of this Contract be held to be a waiver of any other or subsequent breach. Any remedy provided in this Contract shall be taken and construed as cumulative; that is, in addition to each and every other remedy herein provided; and in addition to all other suits, actions or legal proceedings, the Owner shall also be entitled as of right to a writ of injunction against any breach of any of the provisions of the Contract.

XVIII FINAL PAYMENT TO RELEASE THE OWNER

The acceptance by the Contractor of the final payment shall be and shall operate as a release to the Owner of all claims and all liability to the Contractor for all things done or performed or relating to the work, and for every act and neglect of the Owner and others relating to or arising out to the work, excepting only his claims, if any, for amount withheld by the Owner, upon final payment. No payment however, final or otherwise shall operate to release the Contractor nor his Sureties for any obligation upon or under this Contract or the Contractor's Bond.

If, at any time before the commencement or during the progress of the work, the materials and appliances used or to be used appear to the Engineer as insufficient or improper for securing the quality of work required, or the required rate of progress, he may order the Contractor to increase efficiency or to improve their character and the Contractor shall conform to such order, but the failure of the Engineer to demand any increase of such efficiency or any improvement shall not release the Contractor from his obligations to secure the quality of work or the rate of progress specified.

XX MONTHLY ESTIMATE

On or about the first day of each month the Engineer will make an approximate estimate of the value of the work done, whenever said estimate of work done since the last previous estimate exceeds One Thousand Dollars ($1,000.00) in amount. Ninety-two percent (92%) of such approved estimate will be paid, in accordance with Section 153.12 - 153.14 of the Ohio Revised Code. No additional retention will be withheld from estimates made after fifty percent (50%) of the contract amount has been paid.

And the Owner shall, within thirty (30) days after such estimate is made and certified, and upon completion of the work to the approval of the Engineer, pay the entire sum so found to be due hereunder, after deducting all percentages and amounts to be kept and retained under any provision of the contract documents. All prior estimates and payment shall be subject to corrections in the final estimate and payment, but in the absence of error or manifest mistakes, it is agreed that all estimates on the certificate of the Engineer, when approved by the Owner, shall be conclusive of the work done and materials furnished.

Before the final payment is made, the Contractor must furnish an affidavit to the Owner that all bills for labor and materials have been paid; and an affidavit to the Owner stating that he has fully complied with Chapter 4115 of the Ohio Revised Code; and an affidavit to the Owner stating that he has fully complied with Sections 153.59 and 153.60 of the Ohio Revised Code.

"APPENDIX B" OF THE STATE EEO BID CONDITIONS

SPECIFIC AFFIRMATIVE ACTION STEPS

The following Affirmative Action steps are directed at increasing minority utilization:

(1) The contractor should maintain a file of the names and addresses of each minority and female referred to it by any individual or organization and what action was taken with respect to each such referred individual, and if the individual was not employed by the contractor, and the reasons therefore. If such individual was sent to the union hiring hall for referral and not referred back by the union or if referred back by the union or if referred, not employed by the contractor, the file should document this and the reason therefore.

To Demonstrate Compliance: Maintain a file of the names, addresses, telephone numbers, and craft of each minority and female applicant showing (a) the date of contact and whether the person was hired; if not, the reason, (b) if the person was sent to a union for referral, and the results (c) follow-up contacts when the contractor was hiring.

(2) The contractor should promptly notify the State Contracting Agency when the Union or Unions with which the contractor has collective bargaining agreements does not refer to the contractor a minority or female worker referred (to the union) by the contractor, or when the contractor has information that the union referral process has impeded efforts to meet its goals.

To Demonstrate Compliance: Have a copy of letters sent, or do not claim the union is impeding the contractors' efforts to comply.

(3) The contractor should disseminate its Equal Employment Opportunity policy within its organization by including it in any company newsletters and annual reports; by advertising at reasonable intervals in union publications; by posting of the policy; by specific review of the policy with minority and female employees; and by conducting staff meetings to explain and discuss the policy.

To Demonstrate Compliance: Have a written EEO policy which includes the name and how to contact the contractor's EEO Officer and (a) include the policy in any company policy manuals, (b) post a copy of the Policy on all company bulletin boards (in the office and on all job sites), (c) records, such as reports or diaries, etc., that each minority and female employee is aware of the Policy and that it has been discussed with them, (d) that the policy has been discussed regularly at staff meetings and (3) copies of newsletters and annual reports which include the Policy.

(4) The contractor should continually monitor all personnel activities to ensure that its EEO policy is being carried out, including the evaluation of minority and female employees for promotional opportunities on a quarterly basis and the encouragement of such employees to seek those opportunities.

To Demonstrate Compliance: Have records that the company EEO Officer reviews all: (a) monthly workforce reports, (b) hiring and terminations, (c) training provided on-the-job, (d) minority and female employees quarterly for promotion and encourages them to prepare for and seek promotion. The records should be the EEO Officer's job description, reports, memos, personnel files, etc., documenting the activities for possible discriminatory patterns.

(5) The contractor should disseminate its EEO policy externally by informing and discussing it with all recruiting sources; by advertising it in news media, specifically including minority and female news media; and by notifying and discussing it with all subcontractors.

To Demonstrate Compliance: Have copies of (a) letters sent, at least six months or at the start of each new major contract, to all recruiting sources (including labor unions) requiring compliance with the Policy, (b) advertising, which has the EEO "tagline" on the bottom, and (c) purchase order and subcontract agreement forms will include or make reference to the State EEO Covenant, Appendix A or B of the Ohio Administrative Code 123:2-3-02.

(6) The contractor should make specific and reasonably recurrent oral and written recruitment efforts directed at minority and women's organizations, and training organizations with the contractor's recruitment area.

To Demonstrate Compliance: Have a record either in a follow-up file for each organization or on the reverse of the notification letter sent under Item 1, above, of the dates, individuals contacted and the results of the contract from telephone calls or personal meetings with the individuals or groups notified under Item 1.

(7) The contractor, where reasonable, should develop on-the-job training opportunities and participate and assist in all Department of Labor funded and/or approved training programs (including Apprenticeship) Programs relevant to the contractor's employee needs consistent with its obligations in the Bid Conditions.

To Demonstrate Compliance: Have records of contributions in cash, equipment supplied and/or contractor personnel provided as instructors for Bureau of Apprenticeship and Training approved or Department of Labor funded training programs and records of the hiring and training of minorities and females referred to Company by such programs.

(8) The contractor should solicit bids for subcontracts (and joint ventures) from available minority and female subcontractors engaged in the trades covered by the Bid Conditions, including circulation of minority and female contractors associations.

To Demonstrate Compliance: Have copies of letters or other direct solicitation of bids for subcontracts/joint ventures from minority/female contractors with a record of the specific response and any follow-up the contractor has done to obtain a price quotation or to assist a minority/female contractor in preparing or reducing a price quotation; have a list of all minority/female subcontracts awarded or joint ventures participated in with dollar amounts, etc.

EXPLANATION OF AN ACCEPTABLE AFFIRMATIVE ACTION PROGRAM:

An Affirmative Action Program is a set of specific and result-oriented procedures to which a Contractor shall apply every good faith effort. The objective of those procedures and efforts is to assure equal employment opportunity. An acceptable Affirmative Action Program will include an analysis of all trades employed by the Contractor within the last year with an explanation of whether Minorities are currently being under-utilized in any one or more trades. A necessary prerequisite to the development of a satisfactory Affirmative Action Program is the identification and analysis of problem areas inherent in Minority employment and an evaluation of opportunities for utilization of Minority group personnel.

Part I - Basic Contents of an Affirmative Action Program:

1. Development or reaffirmation of the contractor's EEO policy in all personnel actions.

2. Formal internal and external dissemination of contractor's EEO policy.

3. Establishment of responsibilities for implementation of the contractor's affirmative action program.

4. Identification of problem areas (deficiencies) by organizational units and job classification.

5. Establishment of goals and objectives by organizational units and job classification, including timetables for completion.

6. Development and execution of action oriented programs designed to eliminate problems and further designed to attain established goals and objectives.

7. Design and implementation of internal audit and reporting systems to measure effectiveness of the total programs.

8. Compliance of personnel policies and practices with Federal sex discrimination guidelines (41 CFR Part 60-20).

9. Active support of local and national community action programs and community service programs, designed to improve the employment opportunities of minorities.

10. Consideration of ethnic minorities and women not currently in the work force having requisite skills who can be recruited through affirmative action measures.

11. Summary data on applicant flow, hires, terminations and promotions, and training for the last twelve months or the last one hundred applicants, hires, etc., whichever is less.

Part II - Analysis of Individual Trades

1. The minority population of the labor area surrounding (contractor's) projects.

2. The size of the minority unemployment force in the labor area surrounding (the contractor's) projects.

3. The percentage of minority work force as compared with the total work force in the immediate labor area.

4. The general availability of minorities having requisite skills in the immediate labor area.

5. The availability of minorities having requisite skills in the area in which the contractor can reasonably recruit.

6. The availability of promotable minority employees within the contractor's organization.

7. The anticipated expansion, contraction, and turnover of an in the work force.

8. The existence of training institutions capable of training minorities in the requisite skills.

9. The degree of training which the contractor is reasonably able to undertake as a means of making all job classes available to minorities.

Goals, timetables and affirmative action commitments must be designed to correct any identifiable deficiencies. Where deficiencies exist and where numbers or percentages are relevant in developing corrective action, the contractor shall establish and set forth specific goals and timetables. Such goals and timetables, with supporting data and the analysis thereof shall be a part of the contractor's written affirmative action program. Where the contractor has not established a goal, its written affirmative action program must specifically analyze each of the factors listed above, and must detail its reason for a lack of a goal. The goals and timetables should be attainable in terms of the contractor's analysis of its deficiencies and its entire action. Thus, in establishing its goals and timetables, the contractor should consider the results which could be reasonably expected from its good faith efforts to make its overall affirmative action program work. If the contractor does not meet its goals and timetables, the contractor's good faith efforts shall be judged as to whether the contractor is following its program and attempting to make the program work toward the attainment of its goals.

Support data for the above analysis and program shall be compiled and maintained as part of the contractor's affirmative action program. This data should include applicant flow data and applicant rejection ratios indicating minority status.

Compliance Status: No State Contractor's compliance status shall be judged alone by whether or not he reaches his goals and meets his timetables. Rather each Contractor's compliance posture shall be reviewed and determined by reviewing the contents of this program, the extent of his adherence to his program and his good faith efforts to make his program work toward the realization of the program's goals within the timetables set for completion.

"APPENDIX C" OF THE STATE EEO BID CONDITIONS

(B) As required by the governor's "Executive Order 84-9", the utilization of women shall be, at a minimum, that currently in use by the federal government as of February 15, 1984. This requirement stated at C.F.R. part 60-4 is 6.9 percent utilization of women. This requirement shall remain at 6.9 percent unless further amended by the governor in a subsequent order. This requirement shall be met by a determination of work hours utilized in the same manner as minority utilization hours are calculated.

SANDUSKY COUNTY

SUPPLEMENTAL SPECIFICATIONS

FOR

ASPHALT CONCRETE

COMPLETION DATE

Complete all work by October 15, 2019.

GENERAL

The requirements of Items 401, 402, 403, 441 and 448 of the 2016 Edition of the State of Ohio, Department of Transportation, Construction and Materials Specifications (ODOT C & MS) apply, except as modified by these Supplemental Specifications. Item 448.02, Density, does not apply.

The functions of the "Monitoring Team" will be performed by the Sandusky County Engineer or a designated representative.

The Contractor shall contact the Sandusky County Engineers Office 48 hours in advance of starting any work to allow for scheduling of bridge deck water proofing or other necessary work.

JOB MIX FORMULA (JMF)

The JMF may be developed specifically for this project and approved by ODOT or may be one previously approved by ODOT. ODOT approved JMF must be accompanied with a copy of the ODOT approval letter.

Use PG 64-22 asphalt binder.

ASPHALT CONCRETE MIXING PLANT

Submit a copy of ODOT approval letter of plant calibration at least one (1) week prior to the beginning of production to the County Engineer.

METHOD OF PAYMENT

Asphalt Concrete and Compacted Aggregate will be bid and paid for on a tonnage basis. All tonnage, in excess of the contract amount, will be at the Contractor's expense, unless otherwise authorized by the Engineer.

PRICE ADJUSTMENTS

Price adjustments will not be made for asphalt binder, fuel or steel price fluctuations.

GENERAL CONSTRUCTION PROCEDURES

1. The planing depth shall match the combined thicknesses of the proposed intermediate and surface courses of asphalt concrete. The finished cross-slope of the planed surface and the finished asphalt concrete surface shall be the same, typically 3/16” per foot.

2. Paving is to be a continuous operation. Regulate the speed of the paver to eliminate stops between loads.

3. Do not place asphalt concrete when the air temperature is less than sixty (60) degrees F° unless waived by the Sandusky County representative on site.

4. Do not place asphalt concrete on wet surfaces. In the event of rain during the paving operation, only those trucks in route immediately after the rain has started will be permitted to unload.

5. Do not permit traffic on asphalt concrete until it has cured sufficiently so no marking will appear.

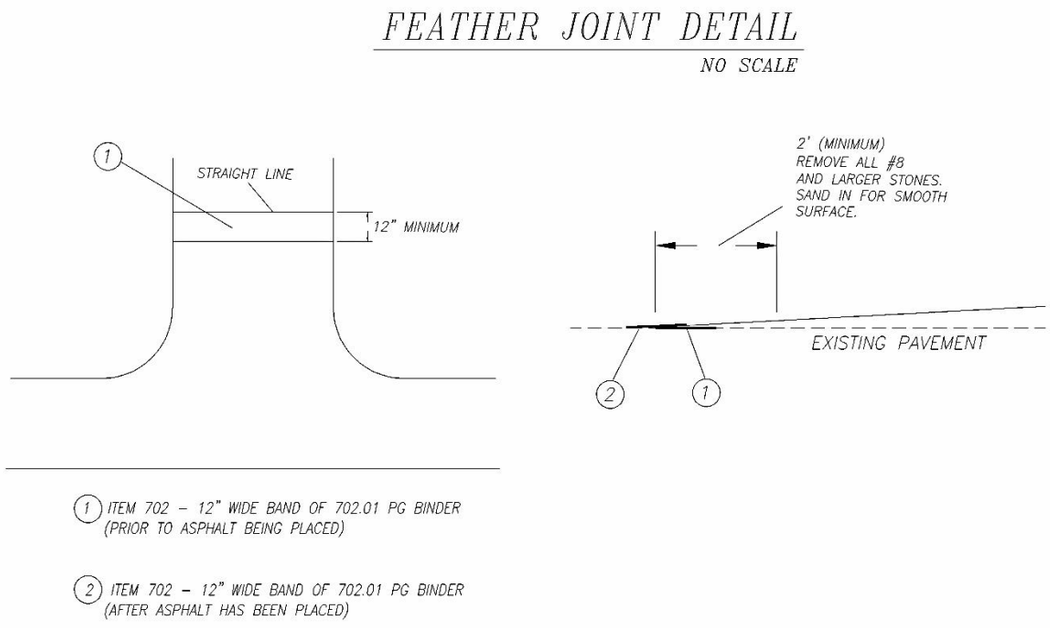
6. Contractor shall use a string line to establish a straight edge. String line shall be placed on outside edge of pavement, unless otherwise authorized by the engineer.

7. Transverse joints shall be minimized or avoided all together. Locations of transverse joints shall be subject to the Engineer’s approval.

8. In areas where the surface is required to be feathered to meet an adjoining surface, coat the existing surface uniformly with a thin coat of asphalt binder. The Contractor may choose to mill a butt joint instead. There shall be no additional cost for this work.

9. Place surface course within seven (7) days of intermediate course.

FEATHER JOINT DETAIL



DRIVEWAYS & MAILBOX APPROACHES

Do not use private driveways to turn around.

Extend asphalt concrete into all driveways and mailbox approaches a minimum of four (4) feet or as directed by the Engineer.

Place Item 617 Compacted Aggregate in driveways with excessive drop offs prior to the conclusion of each day's work as directed by the Engineer.

ITEM 253 – PAVEMENT REPAIR

An estimated quantity of Item 253 Pavement Repair has been included in the plan to be used as a contingency as directed by the Engineer. The work shall include removal and replacement of the asphalt material at the designated repair areas. Contractor shall replace deteriorated pavement with Item 301 Asphalt Concrete Base. Depth of repair shall be a minimum of 6 inches. Length and width of repairs shall be as directed by the Engineer. Minimum width of repairs shall be 4 feet.

PAVEMENT MARKING

This work shall conform to the 2016 ODOT Construction Materials Specifications, Item 640, "Pavement Marking" and Item 642, "Traffic Paint" except as modified below.

A. Paint Specifications
The center line and edge line shall conform to Item 740.02, "Traffic Paint" in the 2016 Construction and Materials Specifications and contain code number listed on the Office of Materials Management approved list.

B. The county will provide the required "T" marking.

C. Paint Striping shall only be performed when both the pavement surface and the air temperature are above the following respective temperature.

Traffic Paint: 50º F

D. The protection of the painted lines shall be the responsibility of the Contractor. The Contractor shall repaint, at his own expense, any lines tracked through by the traveling Public. Payment for this "protection" will be made under Item 614: Lump Sum; Maintaining Traffic.

MAINTAINING TRAFFIC

Maintain traffic at all times, except on roads designated for full width paving.

Erect and maintain all necessary signs and traffic control devices in conformance with Item 614, Maintaining Traffic and the Ohio Manual of Uniform Traffic Control Devices.

Always give emergency vehicles access.

Payment for all involved costs will be made in the Lump Sum bid Item 614 Maintaining Traffic.

LOAD LIMITS

Paint the Gross Vehicle Weight (in pounds) in an obvious location on the side of any vehicle used to haul material to this project. Do not exceed this amount.

If a vehicle exceeds this amount, liquidated damages per the following schedule will be deducted from money due the Contractor:

Overload	Liquidated Damages
Less than 2,000 lb.	$80.00
2,000 to 5,000 lb.	$100.00 plus $1.00 per 100 lb. of total overload
5,000 to 10,000 lb.	$130.00 plus $2.00 per 100 lb. of total overload
Over 10,000	$160.00 plus $3.00 per 100 lb. of total overload

GUARANTEE

Guarantee for a period of one year from the date of completion of the work that it is free from all defects due to faulty materials and workmanship. Promptly make corrections as may be necessary by the reason of such defects. The Engineer will give notice of observed defects with reasonable promptness. If repairs, adjustments or other work which may be necessary by such defects are not made, the Engineer may do so and charge the Contractor the cost thereby incurred. The Contract bond is required to be in full force and effect through the guarantee period.
